

Our interdisciplinary mission is to foster innovative methodologies, teaching and mentoring, and team science by mixed methods scholars and practitioners.

Workshops

Quarterly interactive workshops where participants are immersed in various methodological topics and receive tailored advice on mixed methods proposals and papers.

Research

Innovative and rigorous strategies to integrate quantitative and qualitative approaches

Training and Mentoring

Learning and collaboration through postdoc training and the Qualitative and Mixed Methods Learning Lab.

Consultations

Support for teams designing and conducting a qualitative and mixed methods project/proposal

2026-2027 online workshops

.....
